Stella Lagudis

A community survey or questionnaire was suggested and will be implemented through SurveyMonkey. Several possible recreation area scenarios and options will be listed for community members to select.

Various options for rehabilitation of the recreation area discussed during the meeting are as follows:

- Replacing one tennis court and creating one multipurpose court for basketball, pickle ball, volley ball, etc.
- Include a children's play area with separation from the tennis area.
- Create shuffleboard, horseshoe and corn hole (bean bag toss) game areas.
- Replace the shed

There was general agreement that one well maintained, quality tennis court should be established and routinely maintained. Options for a multiple use second court would be decided based on results of the survey. A second meeting of the committee will be scheduled in the spring to create plans and a budget for the annual meeting next year.
